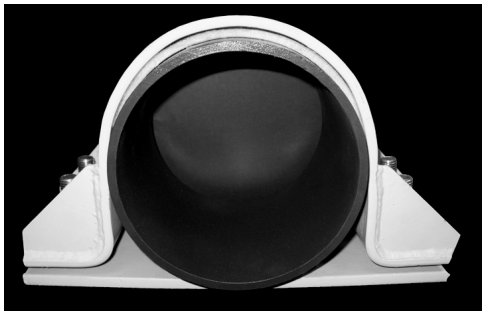
PTP HD-3 HOLD DOWN (ARRESTOR TYPE)

www.pipingtech.com/ptp-hd3



MATERIAL: Carbon steel

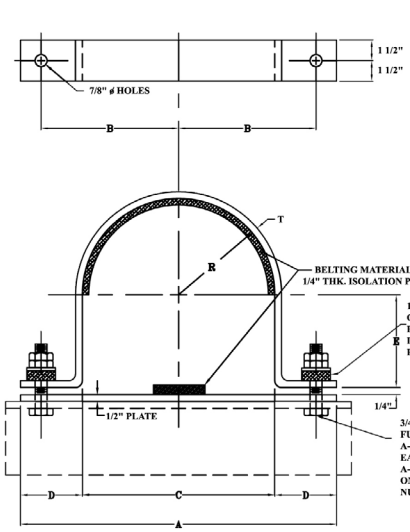
FINISH: Galvanized.

TEMP.: 200 °F

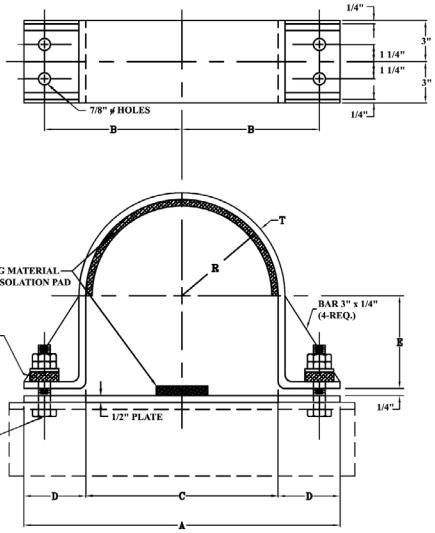
APPLICATION: Fig. PTP HD-3 is an arrestor type hold down. This hold down is actually a restraint that is used when there is very low thermal movement. Its radius is lined with a belting material that is well designed to absorb shock from vibration. This type is generally used on compressor lines or similar application.

ORDERING: Specify figure number, pipe size and description.

NOTE: Belting material remains impervious to heat up to 200 °F.



FOR PIPE SIZES 2 - 6 INCLUSIVE



FOR PIPE SIZES 8 - 36 INCLUSIVE

PIPE SIZE	A	B	C	D	E	R	T
2	9 7/8	3 7/16	2 7/8	3 1/2	1 3/16	1 7/16	1/4
