Course Name, ID Number, and Section: Expansion Joint Application and Design
Semester/Year: Summer/Fall
Meeting Time: Online

Part 1: Course Information

Instructor Information
Instructor: David Baker
Office: Virtual
Office Hours: Anytime
Phone: 713-452-4790
Email: davidb@pipingtech.com

Course Description:
Expansion Joint Application and Design Course covers how to provide flexibility in the piping system by employing expansion joints to accommodate thermal expansion and contraction of sections of pipes or ducts. It discusses the parameters and conditions specified by the piping system designer and how to design an expansion joint as a cost-effective component of the piping system.

Course Structure
This is a lecture type course. The time requirement is a total of 8 hours plus 1-2 hours for quizzes and test.

Textbook & Course Materials

Required Text
No required text

Recommended References & Other Readings
1. U.S. Bellows, Inc. Product Catalogs
   a. Metallic Expansion Joint Catalog
   b. Fabric Expansion Joint Catalog
2. Webinar Recordings
   a. Expansion Joints for Beginners

Part 2: Course Objectives

Learning Outcomes:
Expansion Joint Course Learning Objectives

Upon successful completion of this course, you will be able to:

- Understand the thermal expansion of pipes and know the different types of piping system designer tools. Be able do the steps to acquire a metal bellows expansion joint and walk through an example of a U.S. Bellows job.

- Become familiar with metal expansion joints, types and applications, single bellows, multiple bellows and slip-type expansion joints. Learn the basics of anchors and guides in piping system design.

- Review the different types of expansion joints, including fabric and refractory-lines. Learn about bellows geometry, bellows instability, cycle life and metal bellows convolution parameters. Develop an understanding of related software and databases.

- Learn about fabric expansion joints more in-depth, along with the different types of materials and the importance of the belt details. Review the differences between metallic and fabric expansion joints.

- Overview expansion joint stress analysis and metallic bellows materials. Learn about bellows geometry more in-depth and the types of stresses on metal bellows. Understand the design considerations when designing expansion joints for the piping system.

- Know about the forces and moments on the piping systems due to spring and pressure forces of metal expansion joints. Go over equilibrium conditions, main anchors and anchor force calculations.

- Cover planning major turnarounds and emergency shutdowns. Review inspection criteria and turnaround procedures. Learn what happens during unscheduled maintenance and go over all the field services related to expansion joints in the piping system.

- Review the course conclusion and learn about U.S. Bellows Houston plant facilities. Review business concerns, quality control and continuing education.

Assessment Measures
You will meet the objectives listed above through a combination of the following activities in this course:

1. There will be periodic quizzes throughout the course sections.

2. There will be a final exam at the end of the course.
Part 3: Topics Outline/Schedule

- Section #1: Introduction – Why Expansion Joints
  
  This section serves as an introductory overview of expansion joints.
  
  - Thermal Expansion of pipes
  - Piping system designer tools
  - Steps to acquire a metal bellows expansion joint
  - A US Bellows example job

- Section #2: System Design: Anchors, Guides and Expansion Joints
  
  - Metal expansion joints
  - Types and applications
    - Single bellows
    - Multiple bellows
    - Slip type

- Section #3: Fabric Expansion Joints and Bellows Geometry
  
  - Refractory lined expansion joints
  - Metal bellows convolution parameters
  - Software and Databases
  - Bellows instability & cycle life
  - Fabric expansion joints

- Section #4: Fabric Expansion Joints
  
  - Metallic vs. Fabric
  - Fabric materials
  - Importance of the belt

- Section #5: Expansion Joint Stress Analysis
  
  - Metallic bellows materials
  - Metallic bellows geometry
  - Type of stresses in metal bellows
  - Design considerations
• Section #6: Forces and Movements

Forces and moments on piping systems due to spring and pressure forces of Metal Expansion Joints
- Equilibrium Conditions
- Main Anchors
- Anchor Force Calculations

• Section #7: Field Services

Planning major turnarounds and emergency shutdowns
- Inspection
- Turnarounds
- Unscheduled maintenance
- Field services

• Section #8: Course Conlusion

- Houston plant facilities
- Business concerns
- Quality control
- Course review – continuing education

Part 4: Grading

Graded Assignment Details
Visit Blackboard and learn about the various quizzes given throughout each section and the final exam at the end of the course. For details about the weight of each quiz is listed below. Points you receive for graded activities will be posted in the Blackboard Learn Grade Book. Click on the Grades link on the left navigation bar to view your points. The grades for the quizzes will be updated right after the quiz. For the final exam, your grades will be upgraded after 2 weeks.

<table>
<thead>
<tr>
<th>Assignment</th>

</tbody>
</table>

• Assignment 1 Description: Section #1 Introduction – Why Expansion Joints
Quizzes throughout this section – all True / False
- 10 Questions
  Totals 1/8 of 20% of final grade

• Assignment 2 Description: Section #2 System Design – Anchors, Guides and Expansion Joints
Quizzes throughout this section – all True / False
- 14 Questions
  Totals 1/8 of 20% of final grade

NOTE: Information contained in this class syllabus is subject to change without notice. Students are expected to be aware of any additional course policies presented by the instructor during the course.
• **Assignment 3 Description: Section #3 Fabric Expansion Joints and Bellows Geometry**
  Quizzes throughout this section – all True/False
  ✓ 15 Questions
  Totals 1/8 of 20% of final grade

• **Assignment 4 Description: Section #4 Fabric Expansion Joint Design**
  Quizzes throughout this section – all True/False
  ✓ 12 Questions
  Totals 1/8 of 20% of final grade

• **Assignment 5 Description: Section #5 Expansion Joint Stress Analysis**
  Quizzes throughout this section – all True/False
  ✓ 12 Questions
  Totals 1/8 of 20% of final grade

• **Assignment 6 Description: Section #6 Forces and Moments**
  Quizzes throughout this section – all True/False
  ✓ 15 Questions
  Totals 1/8 of 20% of final grade

• **Assignment 5 Description: Section #7 Field Services**
  Quizzes throughout this section – all True/False
  ✓ 15 Questions
  Totals 1/8 of 20% of final grade

• **Assignment 5 Description: Section #8 Course Conclusion**
  Quizzes throughout this section – all True/False
  ✓ 9 Questions
  Totals 1/8 of 20% of final grade

• **Exam 1: Final test**
  20 questions – 5 multiple choice and 15 True/False
  Totals 80% of final grade

**Participation/Attendance:**
Students are responsible for knowing and adhering to all university and college dates and deadlines. Such dates and deadlines include those for enrollment (registration), adding and dropping of courses, academic holidays, payment and refunds, and applying for graduation. Visit the following helpful websites for specific dates: http://www.uh.edu/academics/catalog/academic‐calendar/ and http://www.uh.edu/emergency.

**Late Work Policy**
*Example: Be sure to pay close attention to deadlines—there will be no makeup assignments or quizzes, or late work accepted without a serious and compelling reason and instructor approval.
Assignments are expected to be turned into Blackboard by the assigned due date. Technology failures will not be accepted as reason for missed assignment due dates. Therefore, do not leave anything to the last minute. Back up files frequently and in various locations so work is not lost. It is the student’s responsibility to identify alternative ways to complete or submit an assignment. For example, if the Blackboard Learn system is offline consider emailing the assignment before the due date. Students are required to follow all UH deadlines: http://www.uh.edu/academics/catalog/academic‐calendar/
**Letter Grade Assignment**

Final grades assigned for this course will be based on the percentage of total points earned and are assigned as follows:

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Percentage</th>
<th>Performance</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>93-100%</td>
<td>Excellent Work</td>
</tr>
<tr>
<td>A-</td>
<td>90-92%</td>
<td>Nearly Excellent Work</td>
</tr>
<tr>
<td>B+</td>
<td>87-89%</td>
<td>Very Good Work</td>
</tr>
<tr>
<td>B</td>
<td>83-86%</td>
<td>Good Work</td>
</tr>
<tr>
<td>B-</td>
<td>80-82%</td>
<td>Mostly Good Work</td>
</tr>
<tr>
<td>C+</td>
<td>77-79%</td>
<td>Above Average Work</td>
</tr>
<tr>
<td>C</td>
<td>73-76%</td>
<td>Average Work</td>
</tr>
<tr>
<td>C-</td>
<td>70-72%</td>
<td>Mostly Average Work</td>
</tr>
<tr>
<td>D+</td>
<td>67-69%</td>
<td>Below Average Work</td>
</tr>
<tr>
<td>D</td>
<td>60-66%</td>
<td>Poor Work</td>
</tr>
<tr>
<td>F</td>
<td>0-59%</td>
<td>Failing Work</td>
</tr>
</tbody>
</table>

This course follows all UH grade regulations, policies, and standards as stated in the student handbook. Review the catalog for conditions under which an incomplete may be granted. [http://www.uh.edu/dos/studenthandbook/] and [http://catalog.uh.edu/content.php?catoid=6&navoid=1077]

**Part 5: Course Assistance**

Students are encourage to start assignments early to help reduce last minute technical issues. All technical error reports must include screenshot proof attached to an email message.

**Support Services:**

Student assistance for Blackboard can be found by visiting [http://www.uh.edu/blackboard/help/](http://www.uh.edu/blackboard/help/), calling 713-743-1411, or emailing support@uh.edu. Software or hardware can be purchased at the UH Bookstore or UH CougarByte Discount website ([http://www.cougarbyte.com/](http://www.cougarbyte.com/)). Additional UH computer labs are available all over campus. Learn more by visiting [http://www.uh.edu/infotech/services/facilities-equipment/comp-labs/](http://www.uh.edu/infotech/services/facilities-equipment/comp-labs/)

NOTE: Information contained in this class syllabus is subject to change without notice. Students are expected to be aware of any additional course policies presented by the instructor during the course.
Technology Requirements
This course uses a learning management system called Blackboard to post assignment details, announcements, and provide collaborative opportunities. This course is best viewed through the use of a full desktop or laptop computer. The use of mobile devices may prevent course materials to not display or work properly. Below are the minimum technology requirements to be successful in this course:

- Supported operating system (e.g. Windows/PC or Apple/MAC computer)
- USB Flash Drive (at least 1 GIG)
- Stable internet connection (Ethernet connection preferred over wireless)
- CougarNet Login credentials [http://accessuh.uh.edu](http://accessuh.uh.edu)
- Email account (UH alias or personal)
- Microsoft Office 2007 or later
- Two supported internet browsers (e.g. Mozilla Firefox, Google Chrome)
- Pop-up blockers disabled for trusted sites (e.g. UH, Blackboard)
- Cookies enabled for trusted sites (e.g. UH, Blackboard)

Technology Competencies/Skills:
Students enrolled in the course must be prepared to perform the basic tasks below.

1. Send and receive email;
2. Attach files to an email message;
3. Locate system information (e.g. browser version, operating system, etc) for trouble shooting;
4. Recognize, use, and create hyperlinks;
5. Use of basic Microsoft Office programs;
6. Download and install software (including utilities, plug-ins, and/or apps);
7. Copy and paste text using a computer;
8. Scan and remove computer viruses;
9. Plug in external devices to a computer;
10. Save files to an external device (e.g. flash drive, CD, or DVD);
11. Use an internet search engine to locate online credible resources;
12. Post and reply to discussion forums or chat via instant messaging tool;
13. Send computer screenshot for technical assistance.

Part 6: Course Policies

Attend Class
Students are expected to view all sections, answer all quizzes to complete the final exam.

Participate
All content related questions should be emailed to [enews@pipingtech.com](mailto:enews@pipingtech.com). All technical related questions should be emailed to UH at [ylholton@central.uh.edu](mailto:ylholton@central.uh.edu).

Build Rapport
If you find that you have any trouble keeping up with assignments or other aspects of the course, make sure you let your instructor know as early as possible. As you will find, building rapport and effective relationships are key

NOTE: Information contained in this class syllabus is subject to change without notice. Students are expected to be aware of any additional course policies presented by the instructor during the course.
to becoming an effective professional. Make sure that you are proactive in informing your instructor when difficulties arise during the semester so that they can help you find a solution.

**Complete Assignments**
All assignments for this course will be submitted electronically through Blackboard Learn unless otherwise instructed. Assignments must be submitted by the given deadline or special permission must be requested from instructor *before the due date*. Extensions will not be given beyond the next assignment except under extreme circumstances.

All discussion assignments must be completed by the assignment due date and time. Late or missing discussion assignments will affect the student’s grade.

**Understand When You May Drop This Course**
You are responsible for making arrangements to drop the course if you wish to do so. If you wish to drop the course, complete the online process at my.uh.edu before the deadline. Your instructor cannot drop you for any reason. Pay attention to the deadline and check your course enrollment status on My UH in https://accessuh.uh.edu/ to make sure your drop has been processed.

**Incomplete Policy**
Under emergency/special circumstances, a student may petition for an incomplete grade. An incomplete will only be assigned if [*insert condition here*]. All incomplete course assignments must be completed within [*insert timeframe here*]. There is a link for the incomplete grade that may be helpful to include.

**Inform Your Instructor of Any Accommodations Needed**
The College of Technology would like to help students who have disabilities achieve their highest potential. In accordance with 504/ADA guidelines, reasonable academic accommodations will be provided to students who request and require them. Students must register with the Center for Students with Disabilities (CSD) 713-743-5400, and present approved accommodation documentation to their instructors as soon as possible but no later than the second week of the semester.

**Commit to Integrity**
As a student in this course and at this university you are expected to maintain high degrees of professionalism, commitment to active learning and participation in this class and also integrity in your behavior in and out of the classroom.

**Academic Dishonesty Policy**
The College of Technology faculty take cheating, plagiarism or any violation of the UH Student Code of Conduct seriously and expect all students to be familiar with the expectations and consequences set out in the Code (http://www.uh.edu/academics/catalog/policies/academ-reg/academic-honesty/index.php.)
Any violation will result in an investigation based on the conditions and steps outlined in the Code of Conduct. Please refer to the examples of plagiarism, the consequences for violations noted in the Code of Conduct, and/or consult your professor if you have specific questions. Please also note that plagiarism also includes reusing your own work submitted for another class. Notification to all concerned parties will be made immediately.
http://catalog.uh.edu/content.php?catoid=6&navoid=1025

**Note:** Information contained in this class syllabus is subject to change without notice. Students are expected to be aware of any additional course policies presented by the instructor during the course.
**Online Student Etiquette:**
This course may host synchronous online meetings. During those meetings consider the following:

- **Keep chats on topic.** Avoid inappropriate conversions that may distract others from the course topic or objective.
- **Avoid strong/loud language.** Be polite. Language can easily be misinterpreted in written communication. Before sending an email or chat message make sure it clearly conveys the intended feeling.
- **Use emoticons to express feelings.** Nonverbal cues can reinforce the feeling of a message. Use sparingly. :-)
- **Respect privacy of peers.** Do not post someone’s personal information online without their expressed permission.
- **Use appropriate dress code on camera.** During a video conference dress as if attending a face-to-face class. Avoid offensive clothing.
- **Be mindful of background noise and scene/location.** Take advantage of quiet areas to avoid distractions to fellow classmates. Avoid offensive décor or noise.
- **Be helpful.** Assist fellow classmates in understanding course materials.
