

# FIG. 700

## U-BOLT CRADLESUPPORT WITH BONDED/BOLTED SLIDE PLATE CRADLED NON-GUIDED SUPPORT

www.pipingtech.com/fig700

- MATERIAL:** Carbon steel
- FINISH:** Painted or hot dipped galvanized.
- OPTIONS:** Modifications in the dimensions A, B, C, D, and the slide plate material (PTFE, 25% glass filled or graphite) available upon request.
- ORDERING:** Specify figure number, pipe size, description, type, quantity, finish and slide plate material.
- ALLOWABLE LOADS:** The allowable vertical loads depend upon the pipe pressure and wall thickness.
- BONDING:** Graphite slide plates are usually bonded. For high temperature service above 500 °F specify bolted construction.
- NOTE:**
- Optional bolted base plate, specify Fig. 701.
  - For upper graphite slide material to be of bolted design, specify Fig. 700 base plate or Fig. 701 base plate (see below).

**FIG. 700 - WELDED BASE**

**FIG. 701 - BOLTED BASE**

PIPE SIZE	A	B	C	D	E	F	APPROX. WEIGHT (lb. per each)
2	5 3/16	4	1	5	2 7/8	3/8	14.0
3	5 3/4	4	12	5	4 1/8	1/2	14.0
