

FIG. 800

U-BOLT CRADLE SUPPORT WITH GUIDE & SLIDE PLATE CRADLED GUIDED SUPPORT

www.pipingtech.com/fig800

- MATERIAL:** Carbon steel
- FINISH:** Painted or hot dipped galvanized.
- OPTIONS:** Modifications in the dimensions A, B, C, D, and the slide plate material (PTFE, 25% glass filled or graphite) available upon request.
- ORDERING:** Specify figure number, pipe size, description, type, quantity, finish and slide plate material.
- ALLOWABLE LOADS:** The allowable vertical loads depend upon the pipe pressure and wall thickness.
- BONDING:** Graphite slide plates are usually bonded. For high temperature service above 500 °F specify bolted construction.
- NOTE:**
- Optional bolted base plate, specify Fig. 801.
 - For upper graphite slide material to be of bolted design, specify Fig. 800 base plate or Fig. 801 base plate (see below).
